Adult disposable incontinence garment or baby's diaper,
comprises a folding front flap to cover the waist fastenings
C2002-020667
Addnl. Data: BRUTIN J M, LORTHIOIT B, COMTE T

NOVELTY

A garment (1) with an inner absorbent pad (2) has a waistband (3) with overlapping end fastenings (7, 8) made from a hook and loop fabric, and a front panel (4) with a flap (4a) which folds over the waistband fastenings and attaches to the waistband at the sides by tabs (5) and additional fastenings (6, 9) of hook and loop fabric.

USE

Adult disposable incontinence garment or baby's diaper.

ADVANTAGE

The waistband fastenings make the garment easier to position, while the folding flap prevents a baby from undoing the front fastenings.

D(9-C2, 9-C3, 9-C4) F(4-C1, 4-E4)
